What Coaching Isn't

1. You are not his **trainer**: you don't need to know much about church planting
2. You are not his **mentor**: you don't need to raise him up in your image
3. You are not his **supervisor**: you don't need to function like a line manager
4. You are not his **accountability** partner: you don't need to ask him difficult questions about his godliness
5. You are not his **counsellor**: so you don't need to fix his problems
6. You're not his **mate**: and so, you don't need to invest in a new friendship
